TRAP TEAM AND PERSONAL RESPONSIBILITIES

When your team shoots at 7:00 (highlighted on the schedule)– One person from your team must be here at 6:20 to score for the 6:30 team and One person from your team must score for the team that shoots at 7:30.

- Be on the field and ready to shoot at least 5 minutes before your scheduled time.
- Someone from your team must stay and score for the team that shoots after you.
- If you have a team member that is late: They have a 5 minute grace period. After 5 minutes your team must start shooting. The late team member can try to catch up when they arrive or shoot the second round with the team and make up the missed round, if time allows, following the second round. DO NOT WAIT MORE THAN 5 MINUTES
- When your team shoots last your team must do the following: Put away speakers, Load trap machines (don't forget to safe release it), Take empty boxes to the burn pit, Turn off machines, Turn off lights, Lock up. It you need to learn any of these tasks ask Ron, John or Kevin for assistance.

Personal Responsibilities:
Remind yourself and other teammates of the following: Don't close the chamber of your gun until it is your turn to shoot, Don't walk to your next station/position until the round is completed by all, Don't start shooting until everyone is in their next station/position

** We have received numerous complaints of people loading and closing their guns right after they shoot.
Please DO NOT close your action until it is your turn to shoot. This will be addressed if it continues.
